# FOURTH GENERATION NURSERY

& Sales Company

**32 Years & Counting!**

**THANK YOU**  
to all our past and  
current customers.

Our original 11" x 14" trifold pricelist (1990) which included plants, has expanded to this 15 page pricelist for supplies with a 60 page catalog & a separate multi-page pricelist just for aquatic plants. 😊

Plant production has gone from 4 bathtubs and 2 kiddie pools to over 100 pools and 2 acres.

Our "fitting Center" has gone from a 2' x 3' cabinet to a 10' x 12' room.

**Our goal is unchanged;**  
to supply you with everything necessary  
to construct and maintain  
water features of all kinds AND  
the knowledge to do it right!

# FOURTH GENERATION Nursey and Sales Company

"When you think about water in the landscape, think about us."

## Terms & Conditions

**Terms:** Initial purchase will be COD. Our business is growing plants not lending money, but we will extend net 30 terms with an approved credit application. If paying by credit card, payment must be made before order ships. Credit card payments will be accepted on invoices that have been extended credit, but will be assessed a 2.5% surcharge.

**Returned Checks:** A \$25 fee will be charged if a check is returned.

**Delivery:** We offer regular, scheduled delivery routes. Truck deliveries that are plants or fish only will be charged for delivery. Please inquire as to how you can qualify for free delivery. \*\*Jobsite delivery is available, please inquire for a quote.

**Drop Ship:** Existing customers may ask us to drop ship which we will do at the next lower discount level. We offer this as a service for our customers to increase their business, not as the sole way for someone to sell products.

**UPS & LTL:** UPS orders received by 10 am Monday – Thursday usually ship same day and LTL orders usually ship the next day. Potted plants and Fish must be shipped on our own delivery trucks. Cost plus handling will be charged on all UPS, LTL or Special orders.

**Pick-Up:** We request 24 hour advance notice to ensure adequate service. Some items are stored at our off-site warehouse. Avoid delays and let us know ahead of time what you need.

**Returns:** The products we sell are warranted by the manufacturer and, as such, credit will only be given for merchandise that meets the individual manufacturer's criteria for returns. We will issue an RMA# for any merchandise that has failed under manufacturer's warranty. Warranty periods vary greatly from item to item ranging from 0 days on a quartz tube to 5 years (if registered) for some pumps so be sure the item is truly under warranty. Credit or replacement will be issued upon the manufacturer's approval. It is your responsibility and expense to ensure that an item reaches us while still under warranty. Please exercise due diligence to ensure that product has in fact failed – gravel, wood chips or fish lodged in an impeller is not a warranted defect! ALL items returned require a dated original sales receipt, written description of the problem, and an RMA#.

Non-defective merchandise may be returned subject to approval and, as such, will require an RMA#. Merchandise must be in its original un-priced and unopened packaging and will be assessed a restocking charge before credit is issued. A 15% restocking charge will apply to merchandise that arrives back here in less than 30 days, and a 30% charge will be applied to items returned between 31-180 days. Those items over 180 days do not receive credit.

# Water Garden Products 2021 Full Service Suggested Retail Price List

**We are wholesale only!**

See page 15 for Discount information

This means we sell to other businesses such as Garden Centers, Nurseries, Landscapers and Pet Stores that are serious about water gardening. We don't sell to the retail public. Please do not send your customers here.

If you are not currently a customer and would like to order from us, we will request the appropriate credentials on your first visit or order.

# So Let Me Tell You About...

## PIPE SPECIFICATIONS

1. All pipe is to be made of a long hole surrounded by metal or plastic centered around the hole.
2. All pipe is to be hollow throughout the entire length - do not use holes of different length to the pipe.
3. The ID (Inside Diameter) of all pipe must not exceed the OD (Outside Diameter) - otherwise the hole will be on the outside.
4. All pipe is to be supplied with nothing in the hole, so that water, steam or other stuff can be put inside at a later date.
5. Joints in pipes for piping water must be water-tight. Those in pipes for compressed air, however, need only be air-tight.
6. All pipe over 500ft in length should have the words «LONG PIPE» clearly painted on each side and end, so that the contractor knows it's a long pipe.
7. Pipe over 2 miles in length must also have the words «LONG PIPE» painted in the middle, so the contractor will not have to walk the entire length of the pipe to determine whether or not it is a long pipe or a short pipe.
8. All pipe over 6" in diameter must have the words "LARGE PIPE" painted on it, so the contractor will not mistake it for small pipe.
9. All pipes shorter than 1/8" are very uneconomical in use, requiring many joints. They are generally known as washers.
10. When ordering 90' or 45' elbows, be sure to specify left-hand or right-hand, otherwise you will end up going the wrong way.
11. Be sure to specify to your vendor whether you want level, uphill or downhill pipe. If you use downhill pipes for going uphill, the water will flow the wrong way.
12. All couplings should have either right-hand or left-hand threads, but do not mix the threads otherwise, as the coupling is being screwed on one pipe, it is being unscrewed from the other.

### Pricing and Discount Policy –

We have continued our practice of showing a "Retail Price" on this list so that your customer will not see what you actually pay. As bona fide wholesale customers, you are entitled to a discount from that price and for new customers, that discount will depend on the \$ volume of your order. (We do NOT have a minimum order, but small purchases will not receive the same discount as large volume orders). This price is based on a simple multiplier of actual cost – manufacturers, internet discounters and mass merchants have reduced the "Suggested" to a euphemism in many cases. Please contact us with your questions.

**PLEASE NOTE** the column for MAPP pricing. This is a price set by the manufacturer as a "Minimum Advertised Price" and where that manufacturer defends the policy it offers some assurance that your customer will not see it for a lower price. Where there is no MAPP price, "anything goes". Because of our commitment to our traditional customers, we offer this additional pricing information for your consideration. Many of you have indicated that this will be a factor in your purchasing decisions, and others have indicated a more flexible pricing policy.

***We do hope that we will have the privilege of being your supply partner!***

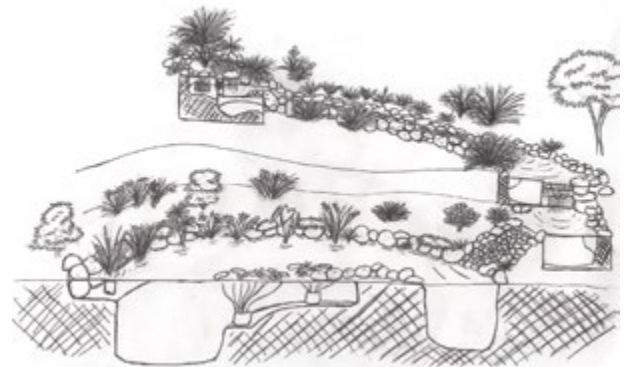

## REMEMBER WE ARE A NURSERY!!!

We specialize in established potted plants, ready to use in the job – "instant gratification". Many of our aquatic plants are available in a larger "specimen" size and we also have a limited amount of "bare root" availability. Our aquatic availability and information about the many aquatic plants we carry, can be found on our website on the Aquatic plants page [www.fgnsales.com/aq\\_plants.html](http://www.fgnsales.com/aq_plants.html).

We show a "Master Aquatic Plant Availability" with plants we have for 2021 and there is also a "Current Aquatic Plant Availability" (what looks good this week) which we update often through-out the season.

These plants are listed in the following categories and pricing is shown as a "retail" price with your discount (only to 'bona fide' members of the trade, based on purchase volume) being applied to that.

<b><i>Lily-like Aquatics - Hardy &amp; Tropical Types</i></b>

Need plants to give that pond installation a finished look in the landscape? Check out our selection of nursery stock. We have a large variety of terrestrial plants from perennials to specimen trees. We are an often overlooked gem of a resource for plant material. With our emphasis on water features we have many unique, asymmetrical or weeping plants to dress up your waterfall or stream.

***Don't leave 'money on the table'  
– finish the job with our plants!!!***
